## JH Technologies FTP Website Download Instructions

The JH Technologies FTP website contains various software programs that may be needed for operating your microscopy and imaging equipment. The FTP website is used to download files or programs that are too large to email. Listed below are instructions on how to download from this site. Note that certain organizations have established network security settings that will not allow you to access or download from FTP websites.

To access this website, type the web address listed below into your web browser.

<ftp://ftp.jhtechnologies.com>

If this website does not grant you access, try the following website instead.

<ftp://jhtechnologies.com/>

You will be prompted to enter a username and password (see window below).

Type the information listed below into the appropriate fields.

User name: ftpuser

Password: jhftp
